

Kitchen *showcase*

This spacious family kitchen is home to a large central island painted in 'Elephants Breath' paint from Farrow & Ball and has a black granite worktop which has a second smaller sink integrated within it. The flagstone flooring gives a real rustic feel which is emphasised further with the range cooker. From £70,000 for the kitchen. **01959 532 553** www.chamberfurniture.co.uk

Design tip: In this family kitchen the darker floors and worktops mean they won't show every mark. If space allows, the large wall calendar makes a fun place to display 'to do' lists and appointments for every member of the family. The smooth cup-style handles are not only practical but also prevent little heads from bumping into sharp metal. Spotlights are positioned to pick-out the roof beams, and cupboard exterior, while pretty decorative pendant lighting serves as overall task lighting.
